- Conference between you, your dedicated project manager, and your contractor

PREPARATION

- Countertop, sink, faucet, hardware, and fixtures removal and disposal
- Tape, cover, and seal area
- Ready any other surfaces involved in the makeover, such as cabinets, walls, and flooring

CONSTRUCTION

- Bring electrical up to code (if necessary)
- Sheetrock or plaster repair
- Painting
- New countertop, sink, and faucet installation
- New hardware and lighting fixture installation
- Flooring installation

COMPLETION

- Appliance reinstallation
